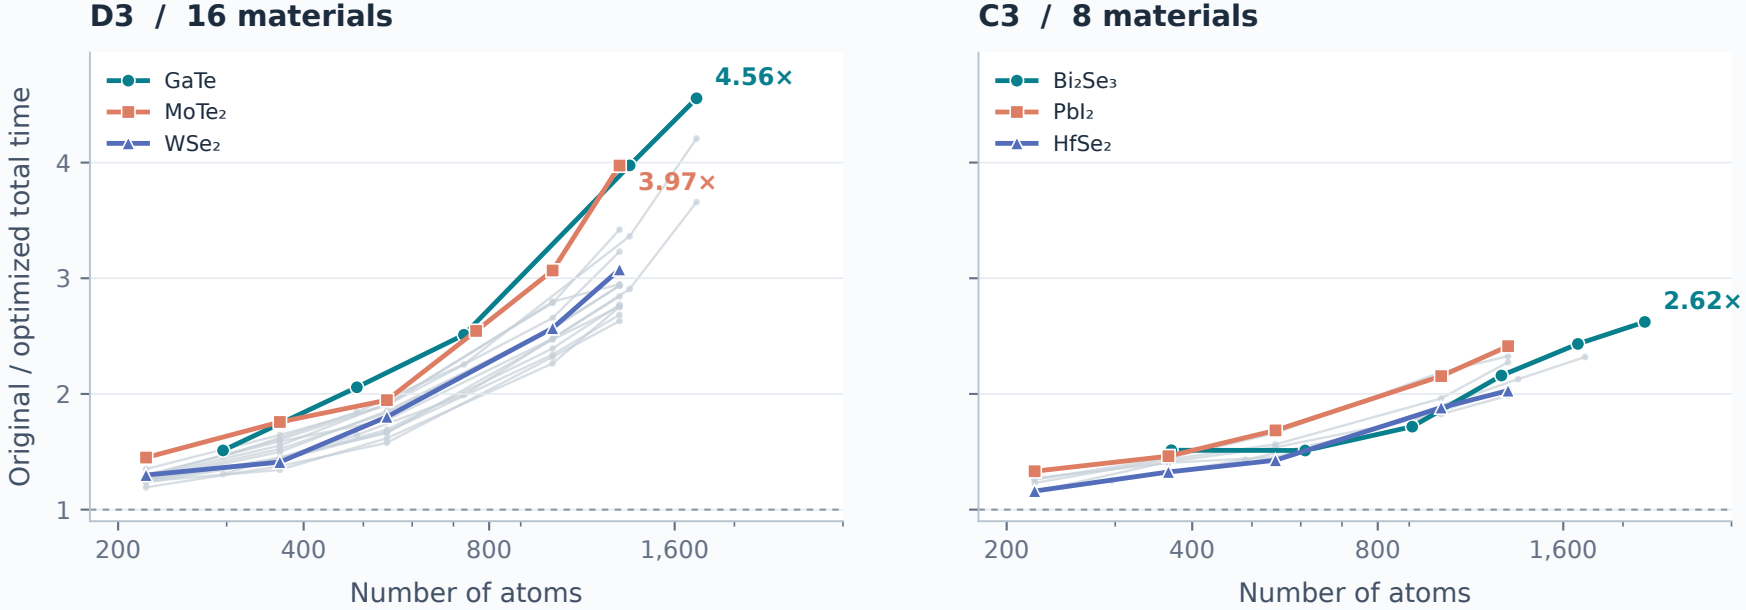
HOW SPEEDUP SCALES

Larger systems, larger gains

Historical build · bigmem001–003 · 128 MPI × 1 · complete NSOC + one-step SOC



Colored curves: named examples. Gray curves: all other energy-qualified materials. No fit or extrapolation.

122 / 127 cases pass the historical 0.1 meV/atom energy gate; 5 WTe_2 cases excluded. Not a current-version or force-equivalence claim.
